## Study & Deepening of this Masterpiece!

Written decades ago by Oxford scholar and Guardian of the Baha'i Faith, this masterful epistle provides the solution to the social dilemmas of today's world in a most insightful manner, calling forth a spiritual re-awakening of mankind to its intrinsic natural state...no less than the recognition of the simple fact that mankind is one family and intelligent unity is its true station.

World wide unity is no longer optional, but is now a mandate of the age in which we live. It is time for humanity to establish world peace and abandon the false standards which allow prejudices, inequities and apathy with its lack of understanding compassion tempered by a sense of true justice to prevail to the detriment and ruination of human dignity. This work calls us to the highest standard and makes it attainable.
