

INDEPENDENT INVESTIGATION
OF REALITY:

JOY

AND THE
TRANSFORMATIVE
POWER OF LOVE

Saturday, November 12, 2016

6PM POT LUCK DINNER AND 7PM PROGRAM

Katsianos Home

6758 Church Street, Highland, CA 92346

One of the fundamental principles of the Baha'i Faith is the independent investigation of reality in the search for truth. As our understanding evolves, our thoughts transform, opening new possibilities of action which together can transform individuals and society at the level of culture.

The program opens with an activity and discussion about our experience of joy. Selected stories from the life of 'Abdu'l-Bahá eloquently demonstrate the way in which the spiritual and practical aspects of life must interact, throwing open for us windows on a new world of possibilities in which love transforms even the direst of situations into blissful joy. Selected excerpts from the Baha'i Writings further illuminate the phenomenon of joy and the transformative power of love.

Deborah Conow has worked in the field of education for nearly 40 years. She has taught Theory of Knowledge, Film Studies, Video Production, Acting, and English. She recently served as program coordinator at the Bosch Baha'i School in Santa Cruz, CA. Deborah lives with her husband, John, in Twin Peaks, CA.
